

Student Council (11.05.22) – Updates from Prosasti

UNO BUS.

What progress has been made / what has been achieved?

- Successfully lobbied for additional buses in the Luton area after multiple meeting with the authorities.

What are my next steps / what do I hope to achieve by the next meeting?

- Continuesly asking for more and more buses as it is not enough for the Commuting Students.

Todd Building Shelter.

What progress has been made / what has been achieved?

- I have successfully lobbied for the funding for Todd Building Shelter from the Council, both shelters will fix by the end of May. It is one of the busiest stops between our both campuses and students were fed up of waiting in severe weather conditions for buses and sometimes students must head across the campus in severe weather to find shelter.

What are my next steps / what do I hope to achieve by the next meeting?

- Help Estates with the relevant student feedbacks to improvise their services.

Other Businesses.

- Hosted wonderful SU Awards with our Lovely President Rhiannon and got the chance to say thank you and felicitate our amazing Student Leaders and the chance to celebrate their successes with them.
